

# ABOUT HAIR WE GO!

In June 2014 I myself had some hair loss, due to chemotherapy treatment. I found wigs were not for me, I didn't like the look or feel of them. I searched the internet and shops, but there was nothing to be found! Anything that came remotely close to comfortable was of high cost, poor quality or not to my criteria. The choice was limited for the various occasions I attended, or the daily activities I undertook.

I was a woman, self-conscious and weary of the fact I had no hair, I felt to an extent, naked!

I had always enjoyed sewing and creating new ideas, it was with this I decided to get **A Head** by myself. I decided to begin making my own head gear from old clothing I had in my wardrobe. I began with a skull cap and added various accessories from tops to scarves.

This initially began as a hobby and a necessity for myself, but I have since began to help others get **A Head** of their hair loss. This began with the Balbriggan Cancer Support Group then following on to various individuals.

How can I help?

I know what it feels like to be in your shoes and I understand that everyone is very different so I believe you as the client must always come first.

I ensure that you get **A Head** that suits your needs whether it's for an occasion wear, casual wear or even just to warm your head!

I take great pride and satisfaction in knowing that you're happy with your very own, unique product suited for you.

I am willing to visit you in the comfort of your own home or you're welcome to visit mine. I can also meet you at the Balbriggan Cancer Support Group!

From this I will show you how to put your headpiece together and if you're not fond of the sewing machine I can assist with that!

## Sample Work

My products are mostly made from old clothing ranging from scarves to broches. I offer a service in order to help people get **A Head!** There are many styles available, some of which are illustrated below

I am open to creating new things and making new ideas, if you, the client have some old clothing or fabrics. I would be more than happy to make your very own headpiece!
